

Economically upgrade to a feature-rich hosted call center without all of the CAP-EX.

Teligent IP's Enhanced Call Center delivers innovative and extensive features that remarkably surpasses other older legacy services. This allows businesses of all sizes achieve its full comprehensive solution experience in providing excellent service.

This Call Center Solution can be utilized as a stand-alone product or fully integrated with our Hosted IP PBX or Unified Communications platform. Our enhanced Call Center Solution simplifies service installation and speeds up service rollout - without the burden of complex customer premises equipment and related capital expenses.

ENHANCED CALL CENTER

KEY FEATURES	WHAT TO EXPECT
Automatic Call Distributor (ACD)	Intelligent call routing and queuing
Enhanced ACD	Advanced queuing, call routing, and wrap-up timer settings
Agent and Supervisor Clients	Intuitive client interface for greater agent productivity and management oversight
ACD State Synchronization through the web agent or IP phone interface	Option to set ACD state either on web agent or on IP phone base on the agent's convenience
Call Center Reporting	Preset real-time and historical reports in graphical and tabular form
Music On Hold and Comfort Announcements	Callers are provided with a greeting, followed by music or advertisements and periodic comfort announcements

BENEFITS

- Improve Customer Service** - Ensure all incoming calls are serviced efficiently under any network condition.
- Create Virtual Call Centers** - Establish call centers just with a broadband connection without additional hardware or traditional phone lines.
- Offer 24x7x365 Customer Care** - Ubiquitous services with a single number for distributed call center locations and follow the sun deployments.
- Manage Calls Effectively** - Choose from a range of call distribution policies, including weighted call distribution.
- Economic Benefits** - Minimize capital outlay, real estate expenditures, and other economic expenses associated with IP communications.

SERVICES

ENHANCED CALL CENTER SUPERVISORS

With the Enhanced Call Center Supervisor client application, supervisors gain superior management capabilities to monitor an agent's activity, service level requirements, and determine training gaps.

With the advanced reports available through the Enhanced Call Center, supervisors can determine appropriate staffing levels to manage costs and service levels in order to effectively handle busy hours.

The Enhanced Call Center main interface is generic for both client applications. Some of the functionality is available only to the supervisor.

600 Congress Avenue 14th Floor
Austin, Texas 78701

1-855-474-8464

ENHANCED CALL CENTER

KEY FEATURES	WHAT TO EXPECT
